

R-SCAN Website Introduction

Using the CDS R-SCAN Registry

Get started at: www.rscan.org

Navigating the Public Website Section

The R-SCAN website has both **public** and **password-protected** sections. Following is information about what to review in the **public** section to help you get started.

1. Check out the **How-to Guide** for step-by-step description of engaging in an R-SCAN collaboration.
2. Click **CW Topics** to access the list of R-SCAN Choosing Wisely® topics.
3. See the **R-SCAN Results** page to learn about the success of practices that have completed R-SCAN collaborations.
4. Select the **Resources** to access educational materials to include General Resources about practice transformation or “Topic-Specific Resources” for each of the R-SCAN Choosing Wisely topics or information about case data entry and review options.

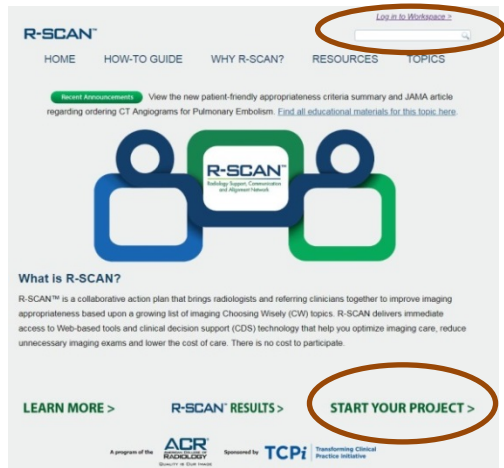

Navigating the Password-Protected Workspace

The **password-protected** website workspace provides registration access for an R-SCAN project. Participants with CareSelect® Imaging/ACR Select clinical decision support (CDS) platform can also view their CDS Data Reports. Following is information about navigating the workspace. An ACR login is required to access and can be [created for free](#).

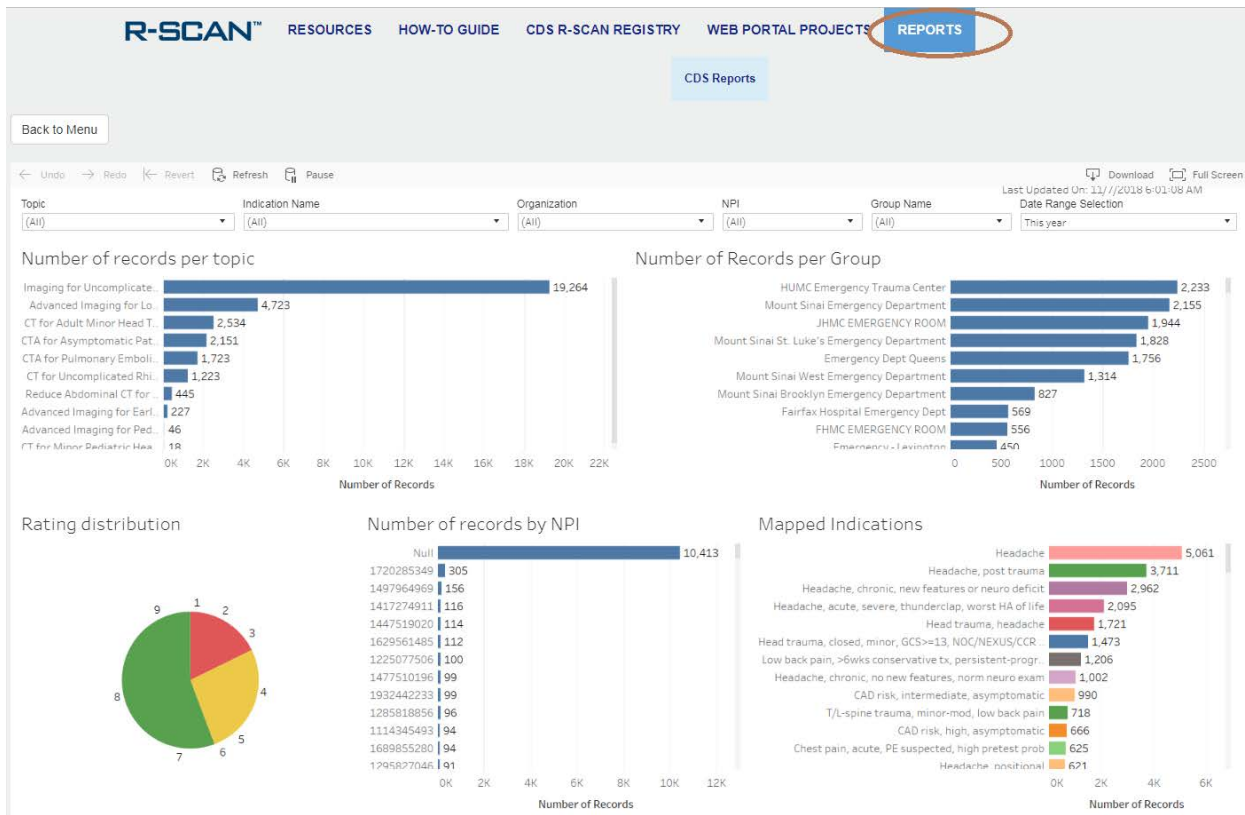

Login to the Workspace: From the R-SCAN home page, click “Start Your Project” or “Log into Workspace.”

Next, log in to the password-protected workspace using your ACR username and password.

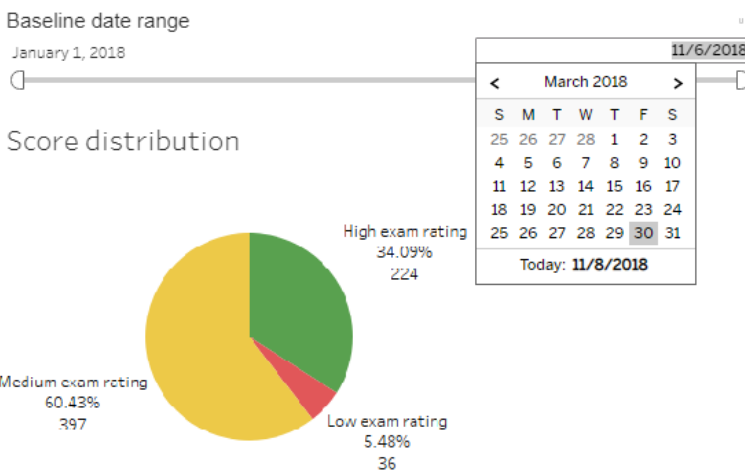

Using the CDS R-SCAN Registry Data

1. Select "Reports" and "CDS Reports" to view your facility's CDS data and select your topic parameters.

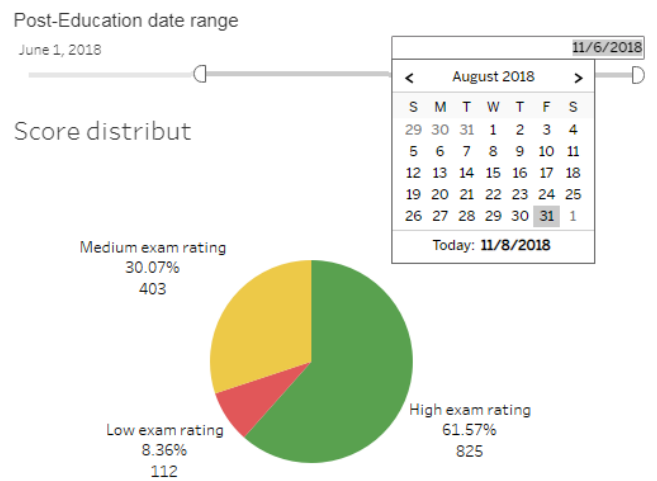

2. Use the report to choose your baseline R date range and, after the educational intervention, the post-education date range.

Before an Educational Intervention

After an Educational Intervention

3. Select "Add Project" to register your project.

The screenshot shows the R-SCAN website navigation bar with 'CDS R-SCAN REGISTRY' selected. Below the navigation, there are tabs for 'Registrations' and 'My Completed Projects'. A 'Back to Home' button is on the left, and an 'Add Project' button is circled in orange on the right. Below these is a table header for 'CDS Registry Projects' with columns: RegID, Site, Group, Topic, Creator, Created, Updated, Lead(R), Lead(C), Status, Progress, and Action. The table is currently empty, and the text 'Total Count: 0' is visible at the bottom right.

4. Follow the brief registration instructions.

The screenshot shows the 'Project Entry' page on the R-SCAN website. The 'Register Project' button is circled in orange. The page is divided into three main sections: 'Identify Participants', 'Identify Your Radiology Practice', and 'Identify the RSCAN Topic'.
1. 'Identify Participants' section: Contains two dropdown menus for 'Select your CareSelect facility' and 'Select your referring clinician collaborators'. To the right, there is a section for 'Name of CareSelect facility not listed?' with a text input field 'Enter name of your site'.
2. 'Identify Your Radiology Practice' section: Contains a text input field 'Search for your radiology practice' and a blue 'Add Radiology Practice' button. Below the input field, there are instructions: '1) Search for your practice by name. If found, select and click "Add Radiology Practice". 2) If not found, click "Add Practice". Enter your practice info and click "Add Practice".'
3. 'Identify the RSCAN Topic' section: This section is partially visible at the bottom of the screenshot.

5. Fill out the fields on the Project Entry page as you carry out your project.

View Report Submit Project

6. View result reports for your baseline and post-education results.

Access Free CME

The ACR offers a collection of educational resources about general practice transformation and resources pertaining to each of the R-SCAN Choosing Wisely topics.

Click “Free CME Resources” for easy access to R-SCAN resources for which free CME are available. The resource collections are continuously being updated, so check back for new offerings.

The screenshot shows the R-SCAN website's "Free CME Resources" page. The navigation bar includes "R-SCAN", "RESOURCES", "HOW-TO GUIDE", "CDS R-SCAN REGISTRY", "WEB PORTAL PROJECTS", and "REPORTS". Below the navigation, there are three tabs: "Practice With CareSelect", "Free CME Resources" (which is selected), and "Topic Specific Resources".

The main heading is "Free CME Resources". Below it, a paragraph states: "All R-SCAN related resources offering CME are described below. Click [here](#) to check out more general and topic specific R-SCAN resources."

The section "General Resources" is highlighted. It includes a sub-heading "General Resources" and a paragraph: "These resources provide examples of how practices are addressing the the Medicare Access and CHIP Reauthorization Act (MACRA) legislation and will guide you in transforming your practice."

There are five resource boxes:

- Webinar: A Post-SGR Guide to New Value-based and Quality-based Reimbursement Models
- AMA STEPS Forward Module: Creating strong team culture
- AMA STEPS Forward Module: Implementing imaging clinical decision support to optimize of imaging exams
- ACP Interactive Case Activity: Learn how to eliminate unnecessary health care costs and Improve patient outcomes
- AMA STEPS Forward Module: Preparing your practice for change and creating the optimal practice environment

The section "R-SCAN Imaging Order Simulation Activity" is highlighted. It includes a sub-heading "R-SCAN Imaging Order Simulation Activity" and a paragraph: "Review the latest image ordering recommendations and test your knowledge about ordering high-value imaging exams using clinical decision support technology."

There is one resource box for this section: "Start testing your knowledge and trying out clinical decision support"

The section "R-SCAN Podcast Series" is highlighted. It includes a sub-heading "R-SCAN Podcast Series" and a paragraph: "Listen to conversations about the latest image ordering recommendations on the go or in your office with podcasts hosted by a radiologist and a referring clinician. The series covers each of the R-SCAN Choosing Wisely topics."
